Stakeholder Input
FY 2020 + 21

Beneficiary System, Policy and Budget
Stakeholder Roles & Expectations

• Provide input from your respective area of expertise
• Look at our system holistically - not just what impacts a specific beneficiary group that is of particular interest to your work
• If you represent a Trust-funded project and/or position - take that “hat” off for purposes of discussion for these two-days

TRUST MISSION
AND
THEORY OF CHANGE
Defining the Mental Health Program

Alaska Statute 47.30.056

“The integrated comprehensive mental health program for which expenditures are made under this section; shall give priority in service delivery to persons who, as a result of a mental disorder or of a disorder identified in this section; may require or are at risk of hospitalization; or experience such major impairment of self-care, self-direction, or social and economic functioning that they require continuing or intensive services.”
BENEFITS OF A COMPREHENSIVE INTEGRATED MENTAL HEALTH PROGRAM

- Encompasses all beneficiary groups
- Bridges departments and divisions
- Endures administrations and legislatures
- Clearly delineates the Alaska’s publicly-funded mental health program
- Establishes program-level vision and priorities
- Serves as the glue that connects reform efforts
- Evolves as the program evolves
A Comprehensive Integrated Mental Health Program

June 20, 2018
1. Medicaid Reform and Redesign
2. Justice Reform Reinvestment

Multi-prong approach: expanding and redesigning Medicaid and reforming the behavioral health system are the foundation for successful criminal justice reform.
A catalyst for change to improve the lives of beneficiaries

Mission & Principles

The Trust’s mission is to improve the lives of beneficiaries through advocacy, planning, implementing and funding a Comprehensive Integrated Mental Health Program.

The Trust is committed to:
- Education of the public and policymakers on beneficiary needs
- Collaboration with consumers and partner advocates
- Maximizing beneficiary input into programs
- Continually improving results for beneficiaries
- Prioritizing services for beneficiaries at risk of institutionalization or needing long-term, intensive care
- Useful and timely data for evaluating programs
- Inclusion of early intervention and prevention components

Investments

Beneficiary, Community and System

Key Outputs

- Beneficiaries access quality, integrated, whole person health care
- Decrease in youth alcohol and substance use and adult binge drinking and illicit substance use
- Reduce adult and youth involvement in the criminal justice system and reduce criminal recidivism
- Beneficiaries achieve integrated employment and have access to quality peer support services
- Beneficiaries can access safe and affordable housing with appropriate community-based social services to maintain tenancy
- Beneficiaries access effective and flexible person-directed long-term services and supports

Results

- Beneficiaries have improved health
- Adults and children are free of the burdens created by alcohol and substance abuse
- Alaska’s workforce meets beneficiary and employer needs
- The criminal justice system effectively accommodates the needs of victims and offenders who are Trust beneficiaries
- Beneficiaries are employed or meaningfully engaged in their communities
- Beneficiaries maintain stable, safe housing
- Beneficiaries live the lives they choose with support they direct

Trust
Alaska Mental Health Trust Authority
Day 1 Objectives:

1) Create an understanding of the state of our Community
   - Drivers and gaps that are pushing beneficiaries out of
     community and into institution levels of care

2) Generate an awareness of indicators and trends suggesting
   an increase in beneficiaries receiving services/supports in
   more restrictive environments
   - Key Question: What is needed to ensure beneficiaries thrive in
     our communities

3) Provide an update on the state of the State’s major system
   reform efforts --- Medicaid and Criminal Justice and other
   critical service components

4) Learn how the Tribal Health Organizations are supporting
   beneficiaries in communities

5) Understand how addressing Alaska’s workforce needs is
   critical to supporting beneficiaries and the success of these
   system reforms
Day 2 Objectives:

1) Create an understanding of the state of our Community
   - Long Term Services and Supports (LTSS) and Intellectual or
     Developmental Disabilities (IDD)
2) Provide an update on the key areas of Trust investment
3) Deep dive table discussions
   - Identify key issues to be addressed for beneficiaries to thrive in
     communities
   - Identify what’s required to drive change (financial, policy,
     legislation, capacity, etc.)
4) Learn how the Veterans Administration is supporting
   beneficiaries in communities
5) Report out / Next steps
